PROFESSIONAL SUMMARY

First-year B.Tech Computer Technology student at Ratan Tata Maharashtra State Skills University with hands-on experience building Python-based AI tools and deploying web applications. Passionate about artificial intelligence, software development, and solving real-world problems through code. Actively building projects in Python and web technologies.

EDUCATION

B.Tech – Computer Technology

2025 – 2029

Ratan Tata Maharashtra State Skills University, Pune

Higher Secondary Certificate (Science)

2025

Shri Bhairavnath Junior College

PROJECTS

BugFinder — Intelligent Error Log Analyzer

Python · [github.com/shriharipote/bugfinder](#)

- Built a Python tool that analyzes error logs and identifies bugs intelligently.
- Designed to help developers quickly diagnose and trace errors in their codebase.

CareerPath AI — AI-Powered Career Guidance Tool

Python · [github.com/shriharipote/careerpath-ai](#)

- Developed an AI-assisted tool to help users explore and plan career paths.
- Integrates AI logic to provide personalized recommendations based on user input.

Personal Portfolio Website

HTML · CSS · Deployed on Netlify · [benevolent-halva-6cddd4.netlify.app](#)

- Designed and deployed a responsive personal portfolio showcasing projects and services.
- Includes sections for work, services offered, and contact — built from scratch.

TECHNICAL SKILLS

Languages: C++, JavaScript, CSS, HTML, Python

Databases: SQL

Electronics: Basic Electronics, Digital Electronics

Hardware & Architecture: Computer Architecture (8085 & 8086 microprocessors), Computer Networking

Design & Tools: CAD Drawing, Git, GitHub, Netlify

AREAS OF INTEREST

Artificial Intelligence & Machine Learning · Software Development · Web Technologies · Computing Systems · Motorsports & Engineering

LANGUAGES

English · Hindi · Marathi
